

EXCEPTIONAL

LIVING CENTERS

Meet Evan

My name is Evan Contento and I am the Community Liaison at Kirtland Rehabilitation and Care in Kirtland, Ohio. I choose a career in long-term care because of my grandpa who had Alzheimer's disease. This inspired me to make a positive impact in this industry and the lives of others, especially for those living with or caring for someone living with Alzheimer's.

I graduated from Bowling Green State University with a Master's degree in Gerontology with a long-term care specialization. My first healthcare position was at Jennings Center for Older Adults working in the maintenance department, ensuring life safety codes were up to state and federal compliance.

I love working in senior care because I love learning about our residents and their life experiences. The wisdom and collection of knowledge really opens up my eyes to each individual resident. It only takes the smallest amount of time in your day to get to know who they are.

Healthcare is a rewarding and valuable career path that makes you feel like you are making a difference!
