

FRANKFORT

CARE AND REHABILITATION

TESTIMONIAL

"I can't say enough about the care I have received while at Frankfort Care and Rehab. The professional, personal care that the physical and occupational therapists provided was exactly what I needed to get back on my feet. PT and OT were very patient, friendly and professional. They challenged me to work to strengthen my muscles. I have more strength in my arms and legs and have a renewed level of independence."

- Leslie T. Auxier

Exceptional Care. Exceptional Outcomes

Mr. Auxier arrived to Frankfort care and rehab following a hip fracture. He was experiencing significant pain resulting in limited mobility. Physical and Occupational therapy developed a therapy plan to achieve his specific goals to return home at his prior level of function. During his stay, Mr. Auxier required an additional hospital stay but reports he was happy to return to us and get back to work with his therapy plan. Mr. Auxier came to Frankfort Care and Rehab with limited mobility post hip fracture, but in

2 weeks he was able to return home, walking independently with assistance of a walker. Congrats to Mr. Auxier for all his hard work and dedication!! He is an inspiration to everyone at Frankfort Care and Rehab. It was a joy for us to be a part of his journey.
